

**Consultation re proposal to install additional and replacement
CCTV cameras in New Ross Town**

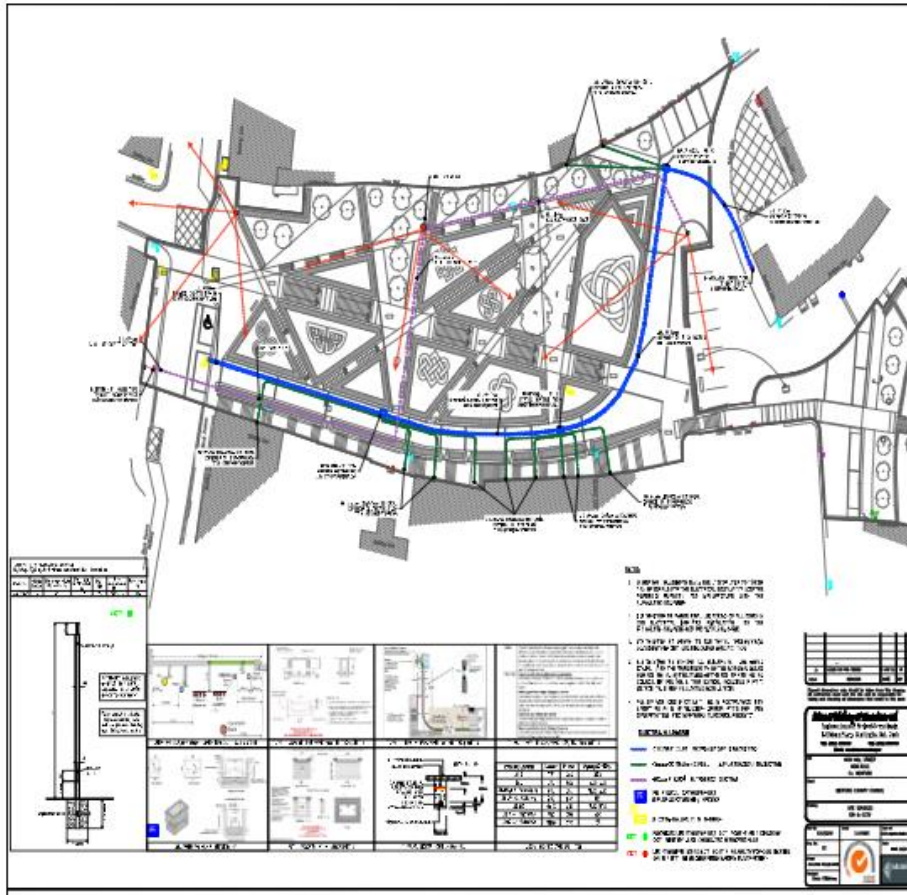

September/October 2021

Following the above consultation all views expressed have been taken into consideration in formulating the new plan for CCTV for New Ross.

While expressions of interest in a CCTV system for Clonroche have been noted, the current scheme under consideration is only applicable to larger towns.

In relation to North St, John St and the High Hill, the camera proposed for the end of the High Hill will be a four lens multisensor camera, covering the High Hill, John St, Bridge Street and North Street. See below extract from the consultation document and a further sketch for additional clarity.

Location & No.	Camera Install Position	Camera Type.	Cameras to view
No.18 High Hill Park	On 3 new Camera Poles to be installed as part of development works at High Hill Park.	2 x 3 Lens Multisensor Cameras 1 x 4 Lens Multisensor Camera	View of High Hill Park, Footpaths & Seating Areas.

Proposed CCTV position at Junction of North St./John St./Bridge St.
